Statement of Additional Information

November 17, 2021

This Statement of Additional Information (“SAI”) should be read in conjunction with the Prospectus for Genuine Investors ETF (the “Fund”) dated November 17, 2021, (the “Prospectus”). This SAI is incorporated by reference in its entirety into the Prospectus. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. Copies of the Prospectus may be obtained without charge, upon request, by calling toll-free (713) 401-9048 or by visiting the Fund’s website at www.genuineinvestorsetf.com.

DESCRIPTION OF THE TRUST AND FUND

The Genuine Investors ETF (the “Fund”) is an open-end non-diversified series of Valued Advisers Trust (the “Trust”). The Trust is a management investment company established under the laws of Delaware by an Agreement and Declaration of Trust dated June 13, 2008 (the “Trust Agreement”). The Trust Agreement permits the Trustees to issue an unlimited number of shares of beneficial interest of separate series without par value. The investment adviser to the Fund is Globescan Capital Inc. dba GCI Investors (the “Adviser”).

The Fund issues and redeems shares solely to certain financial institutions such as registered broker-dealers and banks that have entered into agreements with the Fund’s distributor (“Authorized Participants”) on a continuous basis at net asset value per share (“NAV”) in aggregations of a specified number of shares called “Creation Units.” Creation Units generally are issued in exchange for a basket of securities (“Deposit Securities”), together with the deposit of a specified cash payment (“Cash Component”). Shares are not individually redeemable, but are redeemable only in Creation Unit aggregations, and generally in exchange for portfolio securities and a specified cash payment. A Creation Unit of the Fund consists of a block of shares.

Shares are listed and traded on NYSE Arca. (“NYSE Arca” or the “Exchange”). Shares trade in the secondary market at market prices that may differ from the shares’ NAV. Other than Authorized Participants, investors will not be able to purchase or redeem shares directly with or from the Fund. Instead, most investors will buy and sell shares in the secondary market through a broker.

Each share of a series represents an equal proportionate interest in the assets and liabilities belonging to that series with each other share of that series and is entitled to such dividends and distributions out of income belonging to the series as are declared by the Board. Each share has the same voting and other rights and preferences as any other shares of any series of the Trust with respect to matters that affect the Trust as a whole. The shares do not have cumulative voting rights or any preemptive or conversion rights, and the Board has the authority from time to time to divide or combine the shares of any series into a greater or lesser number of shares of that series so long as the proportionate beneficial interest in the assets belonging to that series and the rights of shares of any other series are in no way affected. The Fund currently offers only one class of shares. In case of any liquidation of a series, the holders of shares of the series being liquidated will be entitled to receive as a class a distribution out of the assets, net of the liabilities, belonging to that series. Expenses attributable to any series are borne by that series. Any general expenses of the Trust not readily identifiable as belonging to a particular series are allocated by or under the direction of the Board in such manner as the Board determines to be fair and equitable. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

Any Trustee of the Trust may be removed by vote of the shareholders holding not less than two-thirds of the outstanding shares of the Trust. The Trust does not hold an annual meeting of shareholders. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each whole share he owns and fractional votes for fractional shares he owns. All shares of the Fund have equal voting rights and liquidation rights. The Trust Agreement can be amended by the Trustees, except that certain amendments that could adversely affect the rights of shareholders must be approved by the shareholders affected. All shares of the Fund are subject to involuntary redemption if the Trustees determine to liquidate the Fund. An involuntary

redemption will create a capital gain or a capital loss, which may have tax consequences about which you should consult your tax advisor.

For information concerning the purchase and sale of shares of the Fund, see “How to Buy and Sell Shares” in the Fund’s Prospectus and in this SAI. For a description of the methods used to determine the share price and value of the Fund’s assets, see “Determination of Net Asset Value” in the Fund’s Prospectus and in this SAI.

The performance of the Fund may be compared in publications to the performance of various indices and investments for which reliable performance data is available. The performance of the Fund may be compared in publications to averages, performance rankings, or other information prepared by recognized investment company statistical services. The Fund’s annual report contains additional performance information and will be made available to investors upon request and without charge.

ADDITIONAL INFORMATION ABOUT INVESTMENTS, STRATEGIES AND RISKS

This section contains additional information regarding some of the investments the Fund may make and some of the techniques it may use.

Common Stocks and Equivalents. The Fund will invest in common stock and common stock equivalents (such as rights and warrants, and convertible securities). Warrants are options to purchase equity securities at a specified price valid for a specific period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Warrants are instruments that entitle the holder to buy underlying equity securities at a specific price for a specific period of time. A warrant tends to be more volatile than its underlying securities and ceases to have value if it is not exercised prior to its expiration date. In addition, changes in the value of a warrant do not necessarily correspond to changes in the value of its underlying securities.

Investment Company Securities. The Fund may invest in shares of other investment companies, such as other mutual funds (open- or closed-end), money market funds, unit investment trusts, and exchange-traded funds (“ETFs”). For example, the Fund may invest in ETFs the investments of which are consistent with the Fund’s own investment strategy. In addition, the Fund also may invest in ETFs that do not meet such investment strategy, for defensive and other purposes. Additionally, the Fund may invest in new exchange-traded shares as they become available. As a shareholder of an investment company, the Fund will indirectly bear its pro rata portion of service and other fees of such other investment company, which are in addition to the fees the Fund pays its service providers. For example, shareholders may incur expenses associated with capital gains distributions by the Fund as well as the underlying funds in which the Fund invests. Shareholders also may incur increased transaction costs as a result of the Fund’s portfolio turnover rate and/or because of the high portfolio turnover rates in the underlying funds. The Fund is independent from any of the underlying funds in which it invests and it has no voice in or control over the investment strategies, policies or decisions of the underlying funds. The Fund’s only option is to redeem its investment in an underlying fund in the event of dissatisfaction with the fund.

To the extent that the Fund invests in ETFs that invest in foreign securities, it will be subject to additional risks associated with direct investments in foreign securities. Foreign investments can involve significant risks in addition to the risks inherent in U.S. investments. Securities of

foreign companies may experience more rapid and extreme changes in value than securities of U.S. companies because a limited number of companies represent a small number of industries. Many foreign countries lack uniform accounting and disclosure standards comparable to those applicable to U.S. companies, and it may be more difficult to obtain reliable information regarding an issuer's financial condition and operations. When the Fund invests in ADRs or other U.S. dollar-denominated foreign securities, it generally will not be subject to currency risk.

Investing abroad also involves different political and economic risks. Foreign investments may be affected by actions of foreign governments adverse to the interests of U.S. investors, including the possibility of expropriation or nationalization of assets, confiscatory taxation, restrictions on U.S. investment or on the ability to repatriate assets or convert currency into U.S. dollars, or other government intervention. There may be a greater possibility of default by foreign governments or foreign government-sponsored enterprises. Investments in foreign countries also involve a risk of local political, economic or social instability, military action or unrest, or adverse diplomatic developments. There is no assurance that the Adviser will be able to anticipate or counter these potential events and their impacts on the Fund's share price.

General Investment Risks. Prices of securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all securities, which could also result in losses to the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of all types of securities, including securities held by the Fund, can decline.

Market Risk. The Fund may lose money due to fluctuations within the stock market which may be unrelated to individual issuers and could not have been predicted. The price of the securities which the Fund holds may change unpredictably and due to local, regional, international, or global events. These events may include economic downturns such as recessions or depressions; natural occurrences such as natural disasters, epidemics or pandemics; acts of violence such as terrorism or war; and political and social unrest. Due to the prominence of globalization and global trade, the securities held by the Fund may be affected by international and global events. In the case of a general market downturn, multiple asset classes, or the entire market, may be negatively affected for an extended and unknown amount of time. Although all securities are subject to these risks, different securities will be affected in different manners depending on the event.

In addition, the global outbreak of the COVID-19 virus and the resulting pandemic has disrupted global economic markets and contributed to significant volatility in certain markets, and the economic impact, duration and spread of the COVID-19 pandemic remains uncertain at this time. The performance of the Fund may be impacted by COVID-19, which may in turn impact the value of your investment.

Equity Securities. The Fund's portfolio may be comprised of domestic and foreign issuers, including common stocks, depositary receipts evidencing ownership in foreign common stocks, preferred stocks, securities convertible into common stocks and securities that carry the right to buy common stocks, traded on domestic or foreign securities exchanges or over-the

counter (“OTC”) markets. The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company’s particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund.

Preferred Stock. Preferred stock represents an equity or ownership interest in an issuer. Preferred stock normally pays dividends at a specified rate and has precedence over common stock in the event the issuer is liquidated or declares bankruptcy. However, in the event an issuer is liquidated or declares bankruptcy, the claims of owners of bonds take precedence over the claims of those who own preferred and common stock. Preferred stock, unlike common stock, often has a stated dividend rate payable from the corporation’s earnings. Preferred stock dividends may be cumulative or non-cumulative, participating, or auction rate. “Cumulative” dividend provisions require all or a portion of prior unpaid dividends to be paid before dividends can be paid to the issuer’s common stock. “Participating” preferred stock may be entitled to a dividend exceeding the stated dividend in certain cases. “Auction Rate” preferred stock is a floating rate preferred stock with the dividend rate reset by Dutch auction, typically every seven, 28, 35 or 49 days. The dividend rate on auction rate preferred stock usually is subject to a maximum rate. If interest rates rise, the fixed dividend on preferred stocks may be less attractive, causing the price of such stocks to decline. Preferred stock may have mandatory sinking fund provisions, as well as provisions allowing the stock to be called or redeemed, which can limit the benefit of a decline in interest rates. Preferred stock is subject to many of the risks to which common stock and debt securities are subject.

Convertible Securities. In addition to common stocks and preferred stocks, the Fund may invest in securities convertible into common stock such as convertible bonds, convertible preferred stocks, and warrants. Convertible bonds are fixed-income securities that may be converted at a stated price within a specified period into a certain quantity of the common stock of the same or a different issuer. Convertible bonds are senior to common stocks in an issuer’s capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also provides the investor the opportunity, through its conversion feature, to participate in the capital appreciation of the underlying common stock. Like other debt securities, the value of a convertible bond tends to vary inversely with the level of interest rates. However, to the extent that the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible bond will be increasingly influenced by its conversion value (the security’s worth, at market value, if converted into the underlying common stock). Although to a lesser extent than with fixed-income securities, the market value of convertible bonds tends to decline as interest rates increase and, conversely, tends to increase as interest rates decline. In addition, because of the conversion feature, the market value of convertible bonds tends to vary with fluctuations in the market value of the underlying common stock. A unique feature of convertible securities is that as the market price of the underlying common stock declines, convertible securities tend to trade increasingly on a yield basis and so may not experience market value declines to the same extent as the underlying common stock. When the market price of the underlying common stock increases, the prices of the convertible securities tend to rise as a reflection of the value of the underlying common stock. While no securities investments are without risk, investments in convertible securities generally entail less risk than investments in common stock of the same issuer.

Warrants and Rights. The Fund may purchase warrants and rights, or it may acquire ownership of such investments by virtue of its ownership of common stocks. Warrants are essentially options to purchase equity securities at specific prices and are valid for a specific period of time. Rights are similar to warrants but generally have a short duration and are distributed directly by the issuer to its shareholders. The holders of warrants and rights have no voting rights, and receive no dividends, with respect to the equity interests underlying warrants or rights, and will have no rights with respect to the assets of the issuer, until the warrant or right is exercised. Investments in warrants and rights involve certain risks, including the possible lack of a liquid market for resale, potential price fluctuations as a result of speculation or other factors, and failure of the price of the underlying security to reach or have reasonable prospects of reaching a level at which the warrant or right can be prudently exercised (in which event the warrant or right may expire without being exercised, resulting in a loss of the Fund's entire investment therein).

Foreign Securities. The Fund may invest in securities issued by foreign governments or foreign corporations, directly or indirectly through exchange traded funds ("ETFs") or derivative transactions (e.g., foreign currency futures). The Fund may also invest in securities of foreign issuers that trade directly on U.S. and foreign stock exchanges or in the form of American Depositary Receipts ("ADRs").

ADRs are receipts that evidence ownership of underlying securities issued by a foreign issuer. ADRs are generally issued by a U.S. bank or trust company to U.S. buyers as a substitute for direct ownership of a foreign security and are traded on U.S. exchanges. ADRs, in registered form, are designed for use in the U.S. securities markets. ADRs may be purchased through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depository. A depository may establish an unsponsored facility without participation by the issuer of the deposited security. The depository of an unsponsored ADR is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights with respect to the deposited security. Investments in ADRs are subject to risks similar to those associated with direct investments in foreign securities. The Fund intends to invest primarily in foreign securities that are listed on U.S. stock exchanges.

Investing in the securities of foreign issuers involves special risks and considerations not typically associated with investing in U.S. companies. The performance of foreign markets does not necessarily track U.S. markets. Foreign investments may be affected favorably or unfavorably by changes in currency rates, exchange control regulations, and capital controls. There may be less publicly available information about a foreign company than about a U.S. company, and foreign companies may not be subject to accounting, auditing and financial reporting standards, and requirements comparable to those applicable to U.S. companies. Foreign securities may trade with less frequency and volume than domestic securities and, therefore, may exhibit less liquidity and greater price volatility than securities of U.S. companies. There may be less governmental supervision of securities markets, brokers and issuers of securities than in the U.S. Changes in foreign exchange rates will affect the value of those securities, which are denominated or quoted in currencies other than the U.S. dollar. Therefore, to the extent the Fund invests in a foreign security, which is denominated or quoted in a currency other than the U.S. dollar, there is a risk that the value of such security will decrease due to changes in the relative value of the U.S. dollar and the security's underlying foreign currency. Additional costs associated with an investment in foreign securities may include higher custodial fees than those applicable to domestic custodial arrangements, generally higher commission rates on foreign portfolio transactions, and transaction costs of foreign currency conversions. Investments in foreign

securities may also be subject to other risks different from those affecting U.S. investments, including local political or economic developments, expropriation or nationalization of assets, restrictions on foreign investment and repatriation of capital, imposition of withholding taxes on dividend or interest payments, currency blockage (which would prevent cash from being brought back to the U.S.), limits on proxy voting and difficulty in enforcing legal rights outside the U.S. Currency exchange rates and regulations may cause fluctuation in the value of foreign securities. In addition, foreign securities and dividends and interest payable on those securities, may be subject to foreign taxes, including taxes withheld from payments on those securities.

Exchange Traded Funds (“ETFs”). The Fund may invest in shares of other ETFs. An ETF is typically an investment company registered under the 1940 Act that holds a portfolio of common stocks designed to track the performance of a particular index or market sector. Alternatively, ETFs may be actively managed pursuant to a particular investment strategy, similar to other non-index based investment companies. ETFs are traded on a securities exchange based on their market value. In addition, ETFs sell and redeem their shares at net asset value (“NAV”) in large blocks (typically 50,000 of its shares) called “creation units.” Shares representing fractional interests in these creation units are listed for trading on national securities exchanges and can be purchased and sold in the secondary market like ordinary stocks in lots of any size at any time during the trading day.

An investment in an ETF generally presents the same primary risks as an investment in a conventional registered investment company (i.e., one that is not exchange traded), including the risk that the general level of securities prices, or that the prices of securities within a particular sector, may increase or decrease, thereby affecting the value of the shares of an ETF. In addition, ETFs are subject to the following risks that do not apply to conventional registered investment companies: (1) the ETF’s shares may trade at a discount to the ETF’s NAV; (2) an active trading market for an ETF’s shares may not develop or be maintained; (3) trading of an ETF’s shares may be halted if the listing exchange deems such action appropriate; (4) ETF shares may be delisted from the exchange on which they trade; and (5) activation of “circuit breakers” by the exchange (which are tied to large decreases in stock prices) may halt trading of the ETF’s shares temporarily. ETFs are also subject to the risks of the underlying securities or sectors the ETF is designed to track.

Because ETFs and pools that issue similar instruments bear various fees and expenses, the Fund will pay a proportionate share of these expenses, as well as transaction costs, such as brokerage commissions. As with traditional investment companies, ETFs charge asset-based fees, although these fees tend to be relatively low as compared to other types of investment companies. ETFs do not charge initial sales loads or redemption fees and investors pay only customary brokerage fees to buy and sell ETF shares.

The U.S. Securities and Exchange Commission (the “SEC”) has granted orders for exemptive relief to certain ETFs that permit investments in those ETFs by other investment companies (such as the Fund) in excess of some of the limits imposed by the 1940 Act. The Fund may invest in ETFs that have received such exemptive orders from the SEC, pursuant to the conditions specified in such orders. In accordance with Section 12(d)(1)(F)(i) of the 1940 Act, the Fund may also invest in ETFs that have not received such exemptive orders and in other investment companies in excess of these limits, as long as the Fund (and all of its affiliated persons, including the Adviser) does not acquire more than the 3% Limitation, unless otherwise permitted to do so pursuant to permission granted by the SEC. In purchasing ETFs, the Fund will be subject to the 3% Limitation unless (i) the ETF or the Fund has received an SEC order for exemptive relief from the 3% Limitation that is applicable to the Fund; and (ii) the ETF and the

Fund take appropriate steps to comply with any conditions in such order. The SEC has issued such exemptive orders to numerous ETFs and their investment advisers, which permit investment companies, including the Fund, to invest in such ETFs (“Exempted ETFs”) beyond the 3% Limitation, subject to certain terms and conditions, including that such investment companies enter into an agreement with the Exempted ETF. The Fund may enter into such agreements with one or more Exempted ETFs so that the Fund will be permitted to invest in such Exempted ETFs in excess of the 3% Limitation. If the Fund seeks to redeem shares of an ETF or other investment company purchased in reliance on Section 12(d)(1)(F), the investment company is not obligated to redeem an amount exceeding 1% of the investment company’s outstanding shares during a period of less than 30 days. The Fund may also exceed some of the limits on investments in other investment companies, including ETFs, to the extent that it relies on new Rule 12d1-4.

While the creation and redemption of creation units helps an ETF maintain a market value close to NAV, the market value of an ETF’s shares may differ from its NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the ETF’s underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risks that the Fund’s NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF).

Money Market Instruments. The Fund may invest in money market instruments, which may include, without limitation, U.S. Government Obligations or corporate debt obligations (including those subject to repurchase agreements) as described herein. Money market instruments also may include Banker’s Acceptances, Certificates of Deposit of domestic branches of U.S. banks, Commercial Paper, Variable Amount Demand Master Notes (“Master Notes”) and shares of money market investment companies. The Fund may invest in shares of money market investment companies to the extent permitted by the 1940 Act.

Banker’s Acceptances are time drafts drawn on and “accepted” by a bank, which are the customary means of effecting payment for merchandise sold in import-export transactions and are a source of financing used extensively in international trade. When a bank “accepts” such a time draft, it assumes liability for its payment. When the Fund acquires a Banker’s Acceptance, the bank which “accepted” the time draft is liable for payment of interest and principal when due. The Banker’s Acceptance, therefore, carries the full faith and credit of such bank.

A *Certificate of Deposit* (“CD”) is an unsecured, interest bearing debt obligation of a bank.

Commercial Paper is an unsecured, short-term debt obligation of a bank, corporation, or other borrower. Commercial Paper maturity generally ranges from two to 270 days and is usually sold on a discounted basis rather than as an interest-bearing instrument. The Fund will invest in Commercial Paper only if it is rated in the highest rating category by any nationally recognized statistical rating organization (“NRSRO”) or, if not rated, if the issuer has an outstanding unsecured debt issue rated in the three highest categories by any NRSRO or, if not so rated, is of equivalent quality in the Adviser’s assessment. Commercial Paper may include Master Notes of the same quality.

Master Notes are unsecured obligations which are redeemable upon demand of the holder and which permit the investment of fluctuating amounts at varying rates of interest. Master Notes will be acquired by the Fund only through the Master Note program of the Fund’s custodian bank,

acting as administrator thereof. The Adviser will monitor, on a continuous basis, the earnings power, cash flow, and other liquidity ratios of the issuer of a Master Note held by the Fund.

Illiquid Investments. The Fund may not purchase or otherwise acquire any illiquid investment if, immediately after the acquisition, the value of illiquid investments held by the Fund would exceed 15% of the Fund's net assets. An illiquid investment is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Illiquid investments pose risks of potential delays in resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio investments and the Fund may be unable to dispose of illiquid investments promptly or at reasonable prices. Under the supervision of the Trust's Board of Trustees (the "Board"), the Adviser determines the liquidity of the Fund's investments and, through reports from the Adviser, the Trustees monitor investments in illiquid investments. If through a change in values, net assets, or other circumstances, the Fund was in a position where more than 15% of its net assets were invested in illiquid investments, it would seek to take appropriate steps to bring the Fund's illiquid investments to or below 15% of its net assets per the requirements of Rule 22e-4 of the 1940 Act. The sale of some illiquid and other types of investments may be subject to legal restrictions.

If the Fund invests in investments for which there is no ready market, the Fund may not be able to readily sell such investments. Such investments are unlike investments that are traded in the open market, and which can be expected to be sold immediately if the market is adequate. The sale price of illiquid investments once realized may be lower or higher than the Adviser's most recent estimate of their fair market value. Generally, less public information is available about issuers of such illiquid investments than about companies whose investments are publicly traded.

Restricted Securities. Within its limitation on investment in illiquid investments, the Fund may purchase restricted securities that generally can be sold in privately negotiated transactions, pursuant to an exemption from registration under the federal securities laws, or in a registered public offering. Where registration is required, the Fund may be obligated to pay all or part of the registration expense and a considerable period may elapse between the time it decides to seek registration and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than prevailed when it decided to seek registration of the security.

Restricted securities are generally considered to be illiquid unless it is determined, based upon a review of the trading markets for a specific restricted security, that such restricted security is liquid because it is so-called "4(a)(2) commercial paper" or is otherwise eligible for resale pursuant to Rule 144A under the Securities Act of 1933, as amended ("144A Securities"). Investing in 144A Securities may decrease the liquidity of the Fund's portfolio to the extent that qualified institutional buyers become for a time uninterested in purchasing these restricted securities. The purchase price and subsequent valuation of restricted securities normally reflect a discount, which may be significant, from the market price of comparable securities for which a liquid market exists.

Borrowing Money. The Fund does not intend to borrow money for the purpose of purchasing securities, but may, subject to the restrictions of the 1940 Act, borrow up to 33 1/3% of its total assets, including the amount of such borrowing, to maintain necessary liquidity to make payments for redemptions of Fund shares or for temporary emergency purposes. Borrowing

involves the creation of a liability that requires the Fund to pay interest. In the event the Fund should ever borrow money under these conditions, such borrowing could increase the Fund's costs and thus reduce the value of the Fund's assets. In an extreme case, if the Fund's current investment income were not sufficient to meet the interest expense of borrowing, it could be necessary for the Fund to liquidate certain of its investments at an inappropriate time.

Lending of Portfolio Securities. In order to generate additional income, the Fund may lend portfolio securities in an amount up to 33⅓% of its total assets to broker-dealers, major banks, or other recognized domestic institutional borrowers of securities that the Adviser has determined are creditworthy under guidelines established by the Board. In determining whether the Fund will lend securities, the Adviser will consider all relevant facts and circumstances. The Fund may not lend securities to any company affiliated with the Adviser. Each loan of securities will be collateralized by cash, securities, or letters of credit. The Fund might experience a loss if the borrower defaults on the loan.

The borrower at all times during the loan must maintain with the Fund collateral in the form of cash or cash equivalents, or provide to the Fund an irrevocable letter of credit equal in value to at least 100% of the value of the securities loaned. While the loan is outstanding, the borrower will pay the Fund any dividends or interest paid on the loaned securities, and the Fund may invest the cash collateral to earn additional income. Alternatively, the Fund may receive an agreed-upon amount of interest income from the borrower who has delivered equivalent collateral or a letter of credit. It is anticipated that the Fund may share with the borrower some of the income received on the collateral for the loan or the Fund will be paid a premium for the loan. Loans are subject to termination at the option of the Fund or the borrower at any time. The Fund may pay reasonable administrative and custodial fees in connection with a loan, and may pay a negotiated portion of the income earned on the cash to the borrower or placing broker. As with other extensions of credit, there are risks of delay in recovery or even loss of rights in the collateral should the borrower fail financially. If the Fund invests the cash collateral from the borrower, there is the risk that such investment may result in a financial loss. In such an event, the Fund would be required to repay the borrower out of the Fund's assets.

Where voting rights with respect to the loaned securities pass with the lending of the securities, the Adviser normally intends to call the loaned securities to vote proxies, or to use other practicable and legally enforceable means to obtain voting rights, when the Adviser believes a material event affecting the loaned securities will occur or the Adviser otherwise believes it necessary to vote.

Economic and Regulatory Risks. Domestic and foreign governments and agencies thereof often adopt an active approach to managing economic conditions within a nation, which may have material effects on the securities markets within the nation. A government may pursue supportive policies that include, but are not limited to, lowering corporate and personal tax rates and launching stimulative government spending programs designed to improve the national economy or sectors thereof. Agencies of a government, including central banks, may pursue supporting policies that include, but are not limited to, setting lower interest rate targets and buying and selling securities in the public markets. Governments and agencies thereof may also attempt to slow economic growth if the pace of economic growth is perceived to be too great and pose a long-term risk to the economy or a sector thereof. In each instance, the actions taken may be less successful than anticipated or may have unintended adverse consequences. Such a failure or investor perception that such efforts are failing could negatively affect securities markets generally, as well as result in higher interest rates, increased market volatility and reduced value and liquidity of certain securities, including securities held by the Fund.

In addition, governments and agencies thereof may enact additional regulation or engage in deregulation that negatively impacts the general securities markets or a sector thereof. Given the potential broad scope and sweeping nature of some regulatory actions, the potential impact a regulatory action may have on securities held by the Fund may be difficult to determine and may not be fully known for an extended period of time. Accordingly, regulatory actions could adversely affect the Fund.

Changing Fixed Income Market Conditions. Following the financial crisis that began in 2007, the U.S. government and the Board of Governors of the Federal Reserve System (the “Federal Reserve”), as well as certain foreign governments and central banks, took steps to support financial markets, including seeking to maintain interest rates at or near historically low levels and by purchasing large quantities of fixed income securities on the open market, such as securities issued or guaranteed by the U.S. government, its agencies or instrumentalities (“Quantitative Easing”). Similar steps took place again in 2020 in an effort to support the economy during the COVID-19 pandemic. It is unclear how long these policies will last. In addition, this and other government interventions may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. When the Federal Reserve determines to “taper” or reduce Quantitative Easing and/or raise the federal funds rate, there is a risk that interest rates across the U.S. financial system will rise. Such policy changes may expose fixed-income and related markets to heightened volatility and may reduce liquidity for certain fixed income investments, including fixed income investments held by the Fund, which could cause the value of the Fund’s investments and share price to decline. To the extent that the Fund invests in derivatives tied to fixed income markets, the Fund will be more substantially exposed to these risks than a fund that does not invest in such derivatives.

INVESTMENT RESTRICTIONS

The Fund has adopted the following fundamental investment limitations that may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and this SAI, the term “majority” of the outstanding shares of the Fund means the lesser of (1) 67% or more of the outstanding voting securities of the Fund present at a meeting, if the holders of more than 50% of the outstanding voting securities of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding voting securities of the Fund. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities. See the Prospectus for more information about the Fund’s investment objective and investment strategies, each of which are not fundamental and may be changed without shareholder approval.

FUNDAMENTAL RESTRICTIONS. As a matter of fundamental policy:

1. **Borrowing Money.** The Fund will not borrow money except as permitted under the 1940 Act. For example, subject to the restrictions of the 1940 Act the Fund may borrow money from banks to meet redemption requests or for extraordinary or emergency purposes.

2. **Senior Securities.** The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund’s engagement in such activities is consistent with or permitted by the Investment Company Act of 1940, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

3. Underwriting. The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws.

4. Real Estate. The Fund will not directly purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from holding or selling real estate acquired as a result of the Fund's ownership of securities or other instruments, investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).

5. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options, forward contracts, or futures contracts, including those relating to indices, or options on futures contracts or indices, or from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.

6. Loans. The Fund will not make loans to other persons, except (a) by loaning portfolio securities, (b) by engaging in repurchase agreements, or (c) by purchasing non-publicly offered debt securities. For purposes of this limitation, the term "loans" shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.

7. Concentration. The Fund will not invest more than 25% of its total assets in a particular industry. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. government, its agencies and instrumentalities or repurchase agreements with respect thereto.

With respect to the percentages adopted by the Trust as maximum limitations on the Fund's investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by the paragraphs above, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

MANAGEMENT OF THE FUND

The Adviser

GCI Investors, a Texas corporation, with a principal address of 7880 San Felipe Street, Suite 240, Houston, TX 77063, serves as the investment adviser to the Fund. The Adviser was

formed in 1996 and is a registered investment adviser under the Investment Advisers Act of 1940, as amended and provides investment advisory services to the Fund. As of September 30, 2021, the Adviser had approximately \$118.9 million in assets under management. The Adviser is owned and controlled by its founder, Pasupati Sadhukan.

Pursuant to the investment advisory agreement between the Adviser and the Trust (on behalf of the Fund), the Adviser has overall responsibility for the general management and administration of the Fund. The Adviser sets the Fund's overall investment strategies, develops, constructs and monitors the asset allocation, identifies securities for investment, determines when securities should be purchased or sold, and selects brokers or dealers to execute transactions for the Fund's portfolio.

In accordance with the investment advisory agreement, the Fund pays the Adviser a monthly investment advisory fee (the "Management Fee") computed at the annual rate of 1.00% of the Fund's average daily net assets.

The Adviser has entered into an expense limitation agreement where it has contractually agreed to waive or limit its fees and to assume other expenses of the Fund until February 29, 2024, so that Total Annual Fund Operating Expenses does not exceed 1.00%. This contractual arrangement may only be terminated by mutual consent of the Adviser and the Board, and it will automatically terminate upon the termination of the investment advisory agreement between the Fund and the Adviser. This operating expense limitation does not apply to: (i) interest, (ii) taxes, (iii) brokerage commissions, (iv) other expenditures which are capitalized in accordance with generally accepted accounting principles, (v) other extraordinary expenses not incurred in the ordinary course of the Fund's business, (vi) dividend expense on short sales, (vii) expenses incurred under a plan of distribution under Rule 12b-1, and (viii) expenses that the Fund has incurred but did not actually pay because of an expense offset arrangement, if applicable, in any fiscal year. The operating expense limitation also excludes any "Fees and Expenses of Acquired Funds," which are the expenses indirectly incurred by the Fund as a result of investing in money market funds or other investment companies, including ETFs, that have their own expenses. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following such waiver or reimbursement, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and the expense limitation in place at the time of the repayment.

General

A discussion of the factors considered by the Board in its approval of the Fund's Management Agreement with the Adviser, including the Board's conclusions with respect thereto, will be available in the Fund's first semi-annual report to shareholders for the period ending April 30, 2022.

About the Portfolio Manager

The Fund is managed by Mr. Guy Davis, CFA, Portfolio Manager and Managing Director of the Adviser (the "Portfolio Manager"). The Portfolio Manager receives a base salary and discretionary performance related bonus based on the overall performance of the Adviser.

The Portfolio Manager may also carry on investment activities for his own account(s) and/or the accounts of immediate family members. Conflicts may arise as a result of the Portfolio Manager's differing economic interests in respect of such activities. The portfolio

manager's management of "other accounts" may give rise to potential conflicts of interest. The other accounts may have the same investment objective as the Fund. A potential conflict of interest may arise whereby a portfolio manager could favor one account over another, or the portfolio manager's knowledge about the size, timing and possible market impact of Fund trades, could be used to the advantage of other accounts. In order to mitigate these risks, the Adviser has established policies and procedures to ensure that the purchase and sale of securities are fairly and equitably allocated. Where possible, the portfolio manager aggregates client transactions, possibly including the Fund's, when it is believed that such aggregation may facilitate the Adviser's duty of best execution. Aggregation facilitates the pro-rata sharing of transaction costs and an average price of such transactions for client accounts that participate. The Adviser generally allocates securities among client accounts according to each account's pre-determined participation in the transaction. The Adviser's policy prohibits any allocation of trades that would favor any accounts or clients over any other account(s). The Adviser monitors trades daily to ensure this policy is not violated.

As of September 30, 2021, the Portfolio Manager was also responsible for the management of the following types of other accounts in addition to the Fund:

Guy Davis				
Type of Account	Number of Other Accounts Managed	Total Assets in Other Accounts Managed (millions)	Number of Accounts Managed with Performance-Based Advisory Fee	Total Assets with Performance-Based Advisory Fee (millions)
Registered Investment Companies:	0	\$0	0	\$0
Other Pooled Investment Vehicles:	0	\$0	0	\$0
Other Accounts:	160	\$118.9 million	0	\$0

As of the date of this SAI, the Fund had not yet commenced operations. Accordingly, the Portfolio Manager did not own any shares of the Fund.

TRUSTEES AND OFFICERS

The Board of Trustees supervises the business activities of the Trust and is responsible for protecting the interests of shareholders. The Chairperson of the Board of Trustees is Andrea N. Mullins, who is not an "interested person" of the Trust, as that term is defined under the 1940 Act. The Board of Trustees has considered the overall leadership structure of the Trust and has established committees designed to facilitate the governance of the Trust by the Trustees generally and the Board's role with respect to risk oversight specifically. The Trust's committees are responsible for certain aspects of risk oversight relating to financial statements, the valuation of the Trust's assets, and compliance matters. The Board of Trustees also has frequent interaction with the service providers and Chief Compliance Officer of the Trust with respect to risk oversight matters. The Trust's Chief Compliance Officer (the "CCO") reports directly to the Board generally with respect to the CCO's role in managing the compliance risks of the Trust. The CCO may also report directly to a particular committee of the Board depending on the subject matter. The Trust's principal financial officer reports to the Audit Committee of the Board on all

financial matters affecting the Trust, including risks associated with financial reporting. Through the committee structure, the Trustees also interact with other officers and service providers of the Trust to monitor risks related to the Trust's operations. The Trust has determined that its leadership structure is appropriate based on the size of the Trust, the Board of Trustees' current responsibilities, each Trustee's ability to participate in the oversight of the Trust and committee transparency.

The Trustees are experienced businesspersons who meet throughout the year to oversee the Trust's activities, review contractual arrangements with companies that provide services to the Fund and review performance. Each Trustee serves as a trustee until termination of the Trust unless the Trustee dies, resigns, retires or is removed.

The following table provides information regarding the Independent Trustees.

Name, Address*, Age, Position with Trust**, Term of Position with Trust	Principal Occupation During Past 5 Years	Other Directorships
Ira P. Cohen, 62 Independent Trustee Since June 2010	Current: Independent financial services consultant (since February 2005); Executive Vice President of Asset Management Services, Recognos Financial (since August 2015).	Trustee and Audit Committee Chairman, Griffin Institutional Access Credit Fund (since January 2017); Trustee and Audit Committee Chairman, Griffin Institutional Real Estate Access Fund (since May 2014); Trustee, Angel Oak Funds Trust (since October 2014) (5 portfolios); Trustee, Chairman, and Nominating and Governance Committee Chairman, Angel Oak Strategic Credit Fund (since December 2017), Trustee, U.S. Fixed Income Trust (since March 2019), Trustee and Chairman, Angel Oak Financial Strategies Income Term Trust (since May 2019), Trustee, Angel Oak Dynamic Financial Strategies Income Term Trust (Since June 2020).

<p>Andrea N. Mullins, 54 Independent Trustee Since December 2013</p> <p>Chairperson since March 2017</p>	<p>Current: Private investor; Independent Contractor, SWM Advisors (since April 2014).</p>	<p>Trustee and Audit Committee Chairman, Griffin Institutional Access Credit Fund (since January 2017); Trustee and Audit Committee Chairman, Griffin Institutional Real Estate Access Fund (since May 2014); Trustee, Angel Oak Funds Trust (since October 2014) (5 portfolios); Trustee, Chairman, and Nominating and Governance Committee Chairman, Angel Oak Strategic Credit Fund (since December 2017), Trustee, U.S. Fixed Income Trust (since March 2019), Trustee and Chairman, Angel Oak Financial Strategies Income Term Trust (since May 2019), Trustee, Angel Oak Dynamic Financial Strategies Income Term Trust (Since June 2020).</p>
---	---	--

*The address for each trustee and officer is 225 Pictoria Dr., Suite 450, Cincinnati, Ohio 45246.

**As of the date of this SAI, the Trust consist of 14 series.

The following table provides information regarding the Trustee who is considered an “interested person” of the Trust, as that term is defined under the 1940 Act. Based on the experience of the Trustee, the Trust concluded that the individual described below should serve as a Trustee.

Name, Address*, Age, Position with Trust**, Term of Position with Trust	Principal Occupation During Past 5 Years	Other Directorships
<p>Mark J. Seger***, 59 Trustee Since March 2017</p>	<p>Current: Vice Chairman and Co-Founder, Ultimius Fund Solutions, LLC and its subsidiaries (since 1999).</p>	<p>None.</p>

*The address for each trustee and officer is 225 Pictoria Dr., Suite 450, Cincinnati, Ohio 45246.

**As of the date of this SAI, the Trust consists of 14 series.

***Mr. Seger is considered an “interested person” of the Trust because of his relationship with the Trust’s administrator and distributor.

The Trust’s committees are responsible for certain aspects of risk oversight relating to financial statements, the valuation of the Trust’s assets, and compliance and governance matters. The Board of Trustees currently has established three standing committees: the Audit Committee; the Pricing Committee; and the Governance and Nominating Committee.

The Trust’s Audit Committee consists of the Independent Trustees. The Audit Committee is responsible for overseeing each Fund’s accounting and financial reporting policies and practices, its internal controls and, as appropriate, the internal controls of certain service providers; overseeing the quality and objectivity of the Fund’s financial statements and the independent audit of the financial statements; and acting as a liaison between the Fund’s independent auditors and the full Board of Trustees. During the 2020 calendar year, the Audit Committee met five times.

The Pricing Committee of the Board of Trustees is responsible for reviewing and approving the Funds' fair valuation determinations, if any. The members of the Pricing Committee are all of the Trustees, except that any one member of the Pricing Committee constitutes a quorum for purposes of reviewing and approving a fair value. During the 2020 calendar year, the Pricing Committee met four times.

The Governance and Nominating Committee consists of the Independent Trustees and oversees general Trust governance-related matters. The Governance and Nominating Committee's purposes, duties and powers are set forth in its written charter, which is included in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. During the 2020 calendar year, the Governance and Nominating Committee met three times.

Trustee Qualifications

Generally, no one factor was decisive in the original selection of an individual to join the Board. Among the factors the Board considered when concluding that an individual should serve on the Board were the following: (1) the individual's business and professional experience and accomplishments; (2) the individual's ability to work effectively with the other members of the Board; (3) how the individual's skills, experience and attributes would contribute to an appropriate mix of relevant skills and experience on the Board; and (4) how the individual would enhance the diversity of the Board. In respect of each Trustee, the individual's substantial professional accomplishments and prior experience, including, in some cases, in fields related to the operations of the Trust, were a significant factor in the determination that the individual should serve as a Trustee of the Trust. In addition to the information provided above, below is a summary of the specific experience, qualifications, attributes or skills of each Trustee and the reason why he or she was selected to serve as Trustee:

Ira P. Cohen – Mr. Cohen has over 40 years of experience in the financial services industry, including in an executive management role. He was selected to serve as Trustee of the Trust based primarily on his comprehensive understanding of the investment management industry's operations and distribution related matters.

Andrea N. Mullins – Ms. Mullins has over 26 years of experience in the mutual fund industry, including experience in management, accounting and financial reporting.

Mark J. Seger - Mr. Seger has over 34 years of experience in the financial services industry, including extensive experience in an executive management role with two different mutual fund servicing companies, including the Trust's administrator. Mr. Seger was selected to serve as Trustee of the Trust based primarily on his extensive knowledge of mutual fund operations, including the regulatory framework under which the Trust must operate.

The following table provides information regarding the Officers of the Trust.

Name, Address*, Age, Position with Trust**, Term of Position with Trust	Principal Occupation During Past 5 Years	Other Directorships
Adam T. Kornegay , 36 Principal Executive Officer and President Since April 2018	Current: Vice President, Business Development Director, Ultimus Fund Solutions, LLC (since June 2018). Previous: Assistant Vice President, Business Development Director, Ultimus Fund Solutions, LLC (March 2015 to June 2018).	None.
Kevin J. Patton , 51 Chief Compliance Officer Since March 2020	Current: Assistant Vice President, Compliance Officer, Ultimus Fund Solutions, LLC (since January 2020). Previous: Partner and Chief Compliance Officer, Renaissance Investment Management (August 2005 to January 2020).	None.
Carol J. Highsmith , 56 Vice President Since August 2008 Secretary Since March 2014	Current: Vice President, Ultimus Fund Solutions, LLC (since December 2015).	None.
Matthew J. Miller , 45 Vice President Since December 2011	Current: Assistant Vice President, Relationship Management, Ultimus Fund Solutions, LLC (since December 2015).	None.
Zachary P. Richmond , 41 Principal Financial Officer and Treasurer Since September 2021	Current: Vice President, Financial Administration for Ultimus Fund Solutions, LLC (February 2019 to present). Previous: Assistant Vice President, Associate Director of Financial Administration for Ultimus Fund Solutions, LLC (December 2015 to February 2019).	None.
Stephen L. Preston , 55 AML Compliance Officer since June 2017	Current: Chief Compliance Officer of Ultimus Fund Distributors, LLC (since June 2011). Previous: Chief Compliance Officer, Ultimus Fund Solutions, LLC (June 2011 to August 2019); Chief Compliance Officer, Unified Financial Securities, LLC (April 2018 to December 2019).	None.

*The address for each trustee and officer is 225 Pictoria Dr., Suite 450 Cincinnati, Ohio 45246.

** As of the date of this SAI, the Trust consists of 14 series.

Trustees' Ownership of Fund Shares. The following table shows each Trustee's beneficial ownership of shares of the Fund and, on an aggregate basis, of shares of all funds within the Trust overseen by the Trustee. Information is provided as of December 31, 2020 and stated as one of the following ranges: A= None; B=\$1-\$10,000; C=\$10,001-\$50,000; D=\$50,001-\$100,000; and E=over \$100,000.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustees in Family of Investment Companies
<i>Non-Interested Trustees</i>		
Ira P. Cohen	A	A
Andrea N. Mullins	A	A
<i>Interested Trustee</i>		
Mark J. Seger	A	A

Set forth below are estimates of the annual compensation paid to the Trustees and compensated officers by the Fund on an individual basis and by the Trust on an aggregate basis. Trustees' and officers' fees and expenses are Trust expenses and the Fund incurs its share of such expenses, which are allocated among the series of the Trust in such manner as the Trustees determine to be fair and equitable.

Independent Trustees	Aggregate Compensation from the Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from Trust*
Ira P. Cohen	\$2,650	\$0	\$0	\$37,100
Andrea N. Mullins	\$2,729	\$0	\$0	\$38,200

*As of the date of this SAI, the Trust consists of 14 series. Each series, including the Fund, pays a portion of the overall Independent Trustee compensation expenses, which is based on the total number of series in the Trust and the total assets of each series relative to the overall assets of the Trust. The amount for the Aggregate Compensation from the Fund may be higher or lower depending on the allocation over relative net assets of the series in the Trust. Effective January 1, 2020, each Independent Trustee receives base compensation of \$36,000. Each independent Trustee also receives additional compensation for serving as the chairperson of one or more of the Trust's standing committees and for participating in special meetings of the Board.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of a fund. The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a fund creates a presumption of control of a fund, under Section 2(a) (9) of the Investment Company Act of 1940. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. The Trust and the Fund do not have information concerning the Fund's beneficial ownership held in the names of DTC Participants. As of the date of this SAI, the Fund had no principal shareholders.

As of the date of this SAI, the Trustees and officers of the Trust as a group owned no shares of the Fund.

PORTFOLIO TURNOVER

The Fund may sell portfolio securities without regard to the length of time they have been held when, in the opinion of the Adviser, investment considerations warrant such action. The Fund's portfolio turnover rate is the percentage of its portfolio that is bought and sold to exchange for other securities and is expressed as a percentage of its total assets. A high rate of portfolio turnover (100% or more) generally leads to higher transaction costs and may result in a greater number of taxable transactions. It is anticipated the portfolio turnover rate for the Fund will generally not exceed 100%. However, this should not be considered as a limiting factor. The Fund's turnover rate will be available after the Fund completes its first fiscal year.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board, the Adviser is responsible for the Fund's portfolio decisions and the placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received.

The Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion and to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser's overall responsibilities with respect to the Fund and to other accounts over which it exercises investment discretion.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund.

When the Fund and another of the Adviser's clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined ("blocked") basis, through one or more broker-dealers. Blocked transactions can produce better execution for the Fund and other accounts managed by the Adviser because of the increased volume of each such transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires, or it may have to pay a higher price for the security.

Similarly, the Fund may not be able to obtain as large an execution of an order to sell, or as high a price for any particular portfolio security, if the Adviser is selling the same portfolio security for its other client accounts at the same time. In the event that more than one client

wants to purchase or sell the same security on a given date, the purchases and sales will normally be made on a pro rata average price per share basis.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices.

The Trust, the Adviser and the Fund's Distributor as defined herein have each adopted a Code of Ethics pursuant to Rule 17j-1 of the 1940 Act, and the Adviser's Code of Ethics also conforms to Rule 204A-1 under the Investment Advisers Act of 1940. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. You may obtain copies of the Trust's Code from documents filed with SEC and available on the SEC's web site at www.sec.gov.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Trust has adopted policies with respect to the disclosure of the Fund's portfolio holdings. These policies generally prohibit the disclosure of information about the Fund's portfolio to third-parties prior to the day after the information is posted to the Fund's website unless the information is publicly available on the SEC's EDGAR system. Because the Fund is an exchange-traded fund, it is required to publicly disclose its portfolio holdings daily, as described below. As further described below, the policies allow for disclosure of non-public portfolio information to third-parties only if there is a legitimate business purpose for the disclosure. In addition, the policies require that the party receiving the portfolio holdings information execute a non-disclosure agreement that includes a prohibition on trading based on the information, unless the party is already subject to a duty of confidentiality (as determined by the Trust's CCO). Any arrangement to disclose non-public information about the Fund's portfolio must be approved by the Trust's CCO. The Trust and the Adviser are prohibited from receiving compensation or other consideration in connection with disclosing information about the Fund's portfolio to third parties.

The Fund discloses on its website at www.genuineinvestorsetf.com at the start of each day on which the New York Stock Exchange is open for business ("Business Day") the identities and quantities of the securities and other assets held by the Fund that will form the basis of the Fund's calculation of its NAV on that day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day. The Fund may also concurrently disclose this portfolio holdings information directly to ratings agencies on a daily basis.

Under the Trust's policies, the Adviser is permitted to include Fund portfolio information that has already been made public through the Fund's website or SEC filing in marketing literature and other communications to shareholders or other parties, provided that, in the case of portfolio information made public solely through the Fund's website, the information is disclosed no earlier than the day after the date of posting to the website.

The Fund releases non-public portfolio holdings information to certain third-party service providers on a daily basis in order for those parties to perform their duties on behalf

of the Fund. These service providers include the Fund's Adviser, Distributor, Transfer Agent, Fund Accounting Agent, Administrator and Custodian. The Fund also periodically discloses portfolio holdings information on a confidential basis to other parties that provide services to the Fund, such as the Fund's auditors, legal counsel, proxy voting services (if applicable), printers, brokers and pricing services. The lag between the date of the information and the date on which the information is disclosed will vary based on the nature of the services provided by the party to whom the information is disclosed. For example, the information may be provided to the Fund's auditors within days after the end of the Fund's fiscal year in connection with the Fund's annual audit, while the information may be given to legal counsel at any time. Fund service providers are required to keep this information confidential and are prohibited from trading based on the information or otherwise using the information except as necessary in providing services to the Fund.

Each business day, the Fund's portfolio holdings information will generally be provided for dissemination through the facilities of the National Securities Clearing Corporation ("NSCC") and/or other fee-based subscription services to NSCC members and/or subscribers to those other fee-based subscription services, including Authorized Participants, and to entities that publish and/or analyze such information in connection with the process of purchasing or redeeming Creation Unites or trading shares of the Fund in the secondary market. This information typically reflects the Fund's anticipated holdings as of the next Business Day.

The Fund reserves the right to adopt a semi-transparency policy which would allow the Fund to disclose information to facilitate efficient trading of shares through substantial portfolio transparency and publication of informative metrics, while shielding the identity of the full portfolio contents of the Fund to protect the Fund's investment strategy. The Fund may adopt such a policy with approval of the Board and without shareholder approval.

PROXY VOTING POLICY

The Trust and the Adviser each have adopted proxy voting policies and procedures reasonably designed to ensure that proxies are voted in shareholders' best interests. As a brief summary, the Trust's policy delegates responsibility regarding proxy voting to the Adviser, subject to the Adviser's proxy voting policy and the supervision of the Board. The Adviser votes each Fund's proxies in accordance with its proxy voting policy, subject to the provisions of the Trust's policy regarding conflicts of interests. The Trust's Proxy Voting Policy and Procedure is attached as Appendix A. The Adviser's Proxy Voting Policy and Procedure is attached as Appendix B.

The Trust's policy provides that, if a conflict of interest between the Adviser or its affiliates and the Fund arises with respect to any proxy, the Adviser must fully disclose the conflict to the Board and vote the proxy in accordance with the Board's instructions. The Board shall make the proxy voting decision that in its judgment, after reviewing the recommendation of the Adviser, is most consistent with the Adviser's proxy voting policies and in the best interests of Fund shareholders.

You may also obtain a copy of the Adviser's proxy voting policies by calling the Adviser at (713) 401-9048. A copy of the policies will be mailed to you within three days of receipt of your request. You may obtain a copy of the Trust's or Adviser's policies from Fund documents filed with the SEC, which are available on the SEC's web site at www.sec.gov. A copy of the votes cast by the Fund with respect to portfolio securities during the most recent 12-month

period ended June 30th will be filed by the Fund with the SEC on Form N-PX. The Fund's proxy voting record will be available to shareholders free of charge upon request by calling or writing the Fund as described above or from the SEC's web site.

DETERMINATION OF NET ASSET VALUE

The NAV of the shares of the Fund is determined at the close of trading (which is normally 4:00 p.m., Eastern time) on each day the New York Stock Exchange is open for business. The New York Stock Exchange is closed on Saturdays, Sundays and the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving and Christmas. For a description of the methods used to determine the NAV (share price), see "Determination of Net Asset Value" in the Prospectus. The Fund's NAV per share is computed by dividing the value of the securities held by the Fund plus any cash or other assets (including interest and dividends accrued but not yet received) minus all liabilities (including accrued expenses) by the total number of shares in the Fund outstanding at such time.

Equity securities are generally valued by using market quotations. Equity securities traded on a securities exchange for which a last-quoted sales price is readily available are generally valued at the last quoted sale price as reported by the primary exchange on which the securities are listed. Lacking a last sale price, an exchange traded security is generally valued by the pricing service at its last bid price. Securities listed on the NASDAQ National Market System are generally valued by a pricing service at the NASDAQ Official Closing Price, which may differ from the last sales price reported.

Options traded on major exchanges are valued at the last quoted sales price on their primary exchange. If there is no reported sale on the valuation date, such options are valued at the mean of the last bid and ask prices.

Fixed income securities for which market quotations are readily available are generally valued based upon the mean of the last bid and ask prices as provided by an independent pricing service. If market quotations are not readily available, the pricing service may use electronic data processing techniques and/or a computerized matrix system based on yield spreads relating to securities with similar characteristics to determine prices for normal institutional-size trading units of debt securities without regard to sale or bid prices to determine valuations. In determining the value of a bond or other fixed income security, matrix pricing takes into consideration recent transactions, yield, liquidity, risk, credit quality, coupon, maturity and type of issue, and any other factors or market data as the independent pricing service deems relevant for the security being priced and for other securities with similar characteristics.

If management or the Adviser considers a valuation unreliable due to market or other events (including events that occur after the close of the trading market but before the calculation of the NAV), the Fund will value its securities at their fair value, as of the close of regular trading on the New York Stock Exchange, as determined in good faith by the Adviser in conformity with guidelines adopted by and subject to review of the Board. The Board annually approves the pricing services used by the fund accounting agent. Fair valued securities held by the Fund (if any) are reviewed by the Board on a quarterly basis.

Short-term investments in fixed income securities with maturities of less than 60 days when acquired, or which subsequently are within 60 days of maturity, are valued at their market value

as determined by an independent third-party pricing agent, unless it is determined that such practice does not approximate fair value.

HOW TO BUY AND SELL SHARES

Creation Units

The Fund will issue and redeem shares at NAV only in aggregations of large blocks of shares or Creation Units and only to Authorized Participants. In order to be an Authorized Participant the firm must be either a broker-dealer or other participant ("Participating Party") in the Continuous Settlement System ("Clearing Process") of the National Securities Clearing Corporation ("NSCC") or a participant in DTC with access to the DTC system ("DTC Participant"), and the firm must execute an agreement ("Participant Agreement") with Northern Lights Distributors, LLC, the Fund's distributor (the "Distributor") that governs transactions in the Fund's Creation Units.

The Fund sells and redeems Creation Units on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt of an order in proper form on any day on which the New York Stock Exchange is open for business. The New York Stock Exchange is closed on Saturdays, Sundays and the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving and Christmas.

The Fund will issue and redeem Creation Units principally in exchange for an in-kind deposit of Deposit Securities, together with the deposit of the Cash Component, plus a transaction fee. The Fund is expected to be approved for listing, subject to notice of issuance, on NYSE Arca. Shares will trade on the Exchange at market prices that may be below, at, or above NAV. In the event of the liquidation of the Fund, a share split, reverse split or the like, the Trust may revise the number of shares in a Creation Unit.

The Fund reserves the right to offer creations and redemptions of shares for cash.

Exchange Listing and Trading

Shares of the Fund are available to the public on NYSE Arca and trade at market prices rather than NAV. Shares of the Fund may trade at a price that is greater than, at, or less than NAV. There can be no assurance that the requirements of NYSE Arca necessary to maintain the listing of shares of the Fund will continue to be met. NYSE Arca may, but is not required to, remove the shares of the Fund from listing if, among other things: (i) following the initial 12-month period beginning upon the commencement of trading of Fund shares, there are fewer than 50 record and/or beneficial owners of shares of the Fund for 30 or more consecutive trading days, or (ii) any other event shall occur or condition shall exist that, in the opinion of NYSE Arca, makes further dealings on NYSE Arca inadvisable. NYSE Arca will also remove shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other publicly-traded securities, when you buy or sell shares of the Fund through a broker, you may incur a brokerage commission determined by that broker, as well as other charges.

Transaction Fees

A fixed fee payable to the Custodian is imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction (“Fixed Fee”). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu (as defined below) are required to pay an additional variable charge to compensate the Fund and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions (“Variable Charge,” and together with the Fixed Fee, the “Transaction Fees”). With the approval of the Board, the Adviser may waive or adjust the Transaction Fees, including the Fixed Fee and/or Variable Charge (shown in the table below), from time to time. In such cases, the Authorized Participant will reimburse the Fund for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Fund and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes. In addition, purchasers of Creation Units are responsible for the costs of transferring the Deposit Securities to the account of the Fund.

Investors who use the services of a broker, or other such intermediary may be charged a fee for such services. The Transaction Fees for the Fund are listed in the table below.

Fee for In-Kind and Cash Purchases	Maximum Additional Variable Charge for Cash Purchases*
\$200	200 basis points (2.00%)

* As a percentage of the amount invested.

The Clearing Process

Transactions by an Authorized Participant that is a Participating Party using the NSCC system are referred to as transactions “through the Clearing Process.” Transactions by an Authorized Participant that is a DTC Participant using the DTC system are referred to as transactions “outside the Clearing Process.” The Clearing Process is an enhanced clearing process that is available only for certain securities and only to DTC participants that are also participants in the Continuous Net Settlement System of the NSCC. In-kind (portions of) purchase orders not subject to the Clearing Process will go through a manual clearing process run by DTC. Portfolio Deposits that include government securities must be delivered through the Federal Reserve Bank wire transfer system (“Federal Reserve System”). Portfolio Deposits that include cash may be delivered through the Clearing Process or the Federal Reserve System. In-kind deposits of securities for orders outside the Clearing Process must be delivered through the Federal Reserve System (for government securities) or through DTC (for corporate securities).

Purchasing Creation Units

Portfolio Deposit

The consideration for a Creation Unit generally consists of the Deposit Securities and a Cash Component. Together, the Deposit Securities and the Cash Component constitute the “Portfolio Deposit.” The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the Deposit Securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the Deposit Securities. If (x) is more than (y), the Authorized

Participant will pay the Cash Component to the Fund. If (x) is less than (y), the Authorized Participant will receive the Cash Component from the Fund.

On each Business Day, prior to the opening of business on NYSE Arca (currently 9:30 a.m., Eastern Time), the Adviser through the Custodian makes available through NSCC the name and amount of each Deposit Security in the current Portfolio Deposit (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. The Deposit Securities announced are applicable to purchases of Creation Units until the next announcement of Deposit Securities.

Payment of any stamp duty or the like shall be the sole responsibility of the Authorized Participant purchasing a Creation Unit. The Authorized Participant must ensure that all Deposit Securities properly denote change in beneficial ownership.

Custom Orders and Cash-in-lieu

The Fund may, in its sole discretion, permit or require the substitution of an amount of cash (“cash-in-lieu”) to be added to the Cash Component to replace any Deposit Security. The Fund may permit or require cash-in-lieu when, for example, a Deposit Security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash in lieu of Deposit Securities when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities laws or policies from transacting in one or more Deposit Securities. The Fund will comply with the federal securities laws in accepting Deposit Securities including that the Deposit Securities are sold in transactions that would be exempt from registration under the Securities Act. All orders involving cash-in-lieu are considered to be “Custom Orders.”

Purchase Orders

An Authorized Participant must submit an irrevocable purchase order in proper form to the Distributor or its agent no later than the earlier of (i) 4:00 p.m. Eastern Time or (ii) the closing time of the bond markets and/or the trading session on the Exchange, on any Business Day in order to receive that Business Day’s NAV (“Cut-off Time”). The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the “Transmittal Date.” An order to create Creation Units is deemed received on a Business Day if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating custom orders and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve Bank wire system, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the “Settlement Date,” which is generally the Business Day immediately following the Transmittal Date (“T+1”) for cash and the third Business Day following the Transmittal Date for securities (“T+3”).

Orders Using the Clearing Process

If available, (portions of) orders may be settled through the Clearing Process. In connection with such orders, the Distributor transmits, on behalf of the Authorized Participant, such trade instructions as are necessary to effect the creation order. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Portfolio Deposit to the

Fund, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System.

Orders Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Portfolio Deposits will be made outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will be effected through DTC. The Portfolio Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of Deposit Securities (whether standard or custom) through DTC to the Fund account by 11:00 a.m., Eastern time, on T+1. The Cash Component, along with any cash-in-lieu and Transaction Fee, must be transferred directly to the Custodian through the Federal Reserve System in a timely manner so as to be received by the Custodian no later than 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive both the Deposit Securities and the cash by the appointed time, the order may be canceled. A canceled order may be resubmitted the following Business Day but must conform to that Business Day's Portfolio Deposit. Authorized Participants that submit a canceled order will be liable to the Fund for any losses incurred by the Fund in connection therewith.

Orders involving foreign Deposit Securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable purchase order, the Distributor will notify the Adviser and the Custodian of such order. The Custodian, who will have caused the appropriate local sub-custodian(s) of the Fund to maintain an account into which an Authorized Participant may deliver Deposit Securities (or cash-in-lieu), with adjustments determined by the Fund, will then provide information of the order to such local sub-custodian(s). The ordering Authorized Participant will then deliver the Deposit Securities (and any cash-in-lieu) to the Fund's account at the applicable local sub-custodian. The Authorized Participant must also make available on or before the contractual settlement date, by means satisfactory to the Fund, immediately available or same day funds in U.S. dollars estimated by the Fund to be sufficient to pay the Cash Component and Transaction Fee. When a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period. Settlement must occur by 2:00 p.m., Eastern Time, on the contractual settlement date.

Acceptance of Purchase Order

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Fund. The Fund's determination shall be final and binding.

The Fund reserves the absolute right to reject or revoke acceptance of a purchase order transmitted to it by the Distributor if (a) the order is not in proper form; (b) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of the Fund; (c) the Deposit Securities delivered do not conform to the Deposit Securities for the applicable date; (d) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (e) the acceptance of the Portfolio Deposit would, in the opinion of counsel, be unlawful; (f) the acceptance of the Portfolio Deposit would otherwise, in the discretion of the Trust, Fund or the Adviser, have an adverse effect on the Trust, Fund or the rights of beneficial owners; or (g) in the event that circumstances outside the control of the Trust, the Distributor and the Adviser make it for all practical purposes impossible to process purchase orders. Examples of such circumstances include acts of God; public service or utility problems resulting in telephone, telecopy or computer failures; fires, floods or extreme weather conditions;

market conditions or activities causing trading halts; systems failures involving computer or other informational systems affecting the Trust, the Distributor, DTC, NSCC, the Adviser, the Fund's Custodian, a sub-custodian or any other participant in the creation process; and similar extraordinary events. The Distributor shall notify an Authorized Participant of its rejection of the order. The Fund, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Portfolio Deposits, and they shall not incur any liability for the failure to give any such notification.

Issuance of a Creation Unit

Once the Fund has accepted an order, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Creation Unit, against receipt of payment, at such NAV. The Distributor will transmit a confirmation of acceptance to the Authorized Participant that placed the order.

Except as provided below, a Creation Unit will not be issued until the Fund obtains good title to the Deposit Securities and the Cash Component, along with any cash-in-lieu and Transaction Fee. Except as otherwise provided, the delivery of Creation Units will generally occur no later than T+2.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

The Fund may issue a Creation Unit prior to receiving good title to the Deposit Securities, under the following circumstances. Pursuant to the applicable Participant Agreement, the Fund may issue a Creation Unit notwithstanding that (certain) Deposit Securities have not been delivered, in reliance on an undertaking by the relevant Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking is secured by such Authorized Participant's delivery to and maintenance with the Custodian of collateral having a value equal to at least 115% of the value of the missing Deposit Securities ("Collateral"), as adjusted from time to time by the Adviser. Such Collateral will have a value greater than the NAV of the Creation Unit on the date the order is placed. Such collateral must be delivered no later than 2:00 p.m., Eastern Time, on T+1. The only Collateral that is acceptable to the Fund is cash in U.S. Dollars.

While (certain) Deposit Securities remain undelivered, the Collateral shall at all times have a value equal to at least 115% (as adjusted by the Adviser) of the daily marked-to-market value of the missing Deposit Securities. At any time, the Fund may use the Collateral to purchase the missing securities, and the Authorized Participant will be liable to the Fund for any costs incurred thereby or losses resulting therefrom, whether or not they exceed the amount of the Collateral, including any Transaction Fee, any amount by which the purchase price of the missing Deposit Securities exceeds the market value of such securities on the Transmittal Date, brokerage and other transaction costs. The Trust will return any unused Collateral once all of the missing securities have been received by the Fund. More information regarding the Fund's current procedures for collateralization is available from the Distributor.

Cash Purchase Method

When cash purchases of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind purchases. In the case of a cash purchase,

the investor must pay the cash equivalent of the Portfolio Deposit. In addition, cash purchases will be subject to Transaction Fees, as described above.

Redeeming a Creation Unit

Redemption Basket

The consideration received in connection with the redemption of a Creation Unit generally consists of an in-kind basket of designated securities (“Redemption Securities”) and a Cash Component. Together, the Redemption Securities and the Cash Component constitute the “Redemption Basket.”

There can be no assurance that there will be sufficient liquidity in Shares in the secondary market to permit assembly of a Creation Unit. In addition, investors may incur brokerage and other costs in connection with assembling a Creation Unit.

The Cash Component serves the function of compensating for any differences between the net asset value per Creation Unit and the Redemption Securities. Thus, the Cash Component is equal to the difference between (x) the net asset value per Creation Unit of the Fund and (y) the market value of the Redemption Securities. If (x) is more than (y), the Authorized Participant will receive the Cash Component from the Fund. If (x) is less than (y), the Authorized Participant will pay the Cash Component to the Fund.

If the Redemption Securities on a Business Day are different from the Deposit Securities, prior to the opening of business on NYSE Arca (currently 9:30 a.m., Eastern Time), the Adviser through the Custodian makes available through NSCC the name and amount of each Redemption Security in the current Redemption Basket (based on information at the end of the previous Business Day) for the Fund and the (estimated) Cash Component, effective through and including the previous Business Day, per Creation Unit. If the Redemption Securities on a Business Day are different from the Deposit Securities, all redemption requests that day will be processed outside the Clearing Process.

The right of redemption may be suspended or the date of payment postponed: (i) for any period during which NYSE Arca is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on NYSE Arca is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares or determination of the Fund’s NAV is not reasonably practicable; or (iv) in such other circumstances as permitted by the SEC, including as described below.

Custom Redemptions and Cash-in-lieu

The Fund may, in its sole discretion, permit or require the substitution of cash-in-lieu to be added to the Cash Component to replace any Redemption Security. The Fund may permit or require cash-in-lieu when, for example, a Redemption Security may not be available in sufficient quantity for delivery or may not be eligible for transfer through the systems of DTC or the Clearing Process. Similarly, the Fund may permit or require cash-in-lieu of Redemption Securities when, for example, the Authorized Participant or its underlying investor is restricted under U.S. or local securities law or policies from transacting in one or more Redemption Securities. The Fund will comply with the federal securities laws in satisfying redemptions with Redemption Securities, including that the Redemption Securities are sold in transactions that would be exempt from

registration under the Securities Act. All redemption requests involving cash-in-lieu are considered to be “Custom Redemptions.”

Redemption Requests

To redeem a Creation Unit, an Authorized Participant must submit an irrevocable redemption request to the Distributor.

An Authorized Participant submitting a redemption request is deemed to represent to the Fund that it has ascertained or has reasonable grounds to believe that as of the time of the contractual settlement date, that (i) it or its customer, as the case may be, owns, will own or have the authority and right to tender for redemption the Creation Unit to be redeemed and can receive the entire proceeds of the redemption, and (ii) all of the Shares that are in the Creation Unit to be redeemed have not been loaned or pledged to another party nor are they the subject of a repurchase agreement, securities lending agreement or such other arrangement that would preclude the delivery of such Shares to the Fund on the contractual settlement date. The Fund reserves the absolute right, in its sole discretion, to verify these representations, but will typically require verification in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification request, does not provide sufficient verification of the requested representations, the redemption request will not be considered to be in proper form and may be rejected by the Fund.

Timing of Submission of Redemption Requests

An Authorized Participant must submit an irrevocable redemption order no later than the Cut-off Time. The Cut-off Time for Custom Orders is generally two hours earlier. The Business Day the order is deemed received by the Distributor is referred to as the “Transmittal Date.” A redemption request is deemed received if (i) such order is received by the Distributor by the Cut-off Time on such day and (ii) all other procedures set forth in the Participant Agreement are properly followed. Persons placing or effectuating Custom Redemptions and/or orders involving cash should be mindful of time deadlines imposed by intermediaries, such as DTC and/or the Federal Reserve System, which may impact the successful processing of such orders to ensure that cash and securities are transferred by the Settlement Date, as defined above.

Requests Using the Clearing Process

If available, (portions of) redemption requests may be settled through the Clearing Process. In connection with such orders, the Distributor transmits on behalf of the Authorized Participant, such trade instructions as are necessary to effect the redemption. Pursuant to such trade instructions, the Authorized Participant agrees to deliver the requisite Creation Unit(s) to the Fund, together with such additional information as may be required by the Distributor. Cash Components will be delivered using either the Clearing Process or the Federal Reserve System, as described above.

Requests Outside the Clearing Process

If the Clearing Process is not available for (portions of) an order, Redemption Baskets will be delivered outside the Clearing Process. Orders outside the Clearing Process must state that the DTC Participant is not using the Clearing Process and that the redemption will be effected through DTC. The Authorized Participant must transfer or cause to be transferred the Creation Unit(s) of shares being redeemed through the book-entry system of DTC so as to be delivered

through DTC to the Custodian by 10:00 a.m., Eastern Time, on T+1. In addition, the Cash Component must be received by the Custodian by 12:00 p.m., Eastern Time, on T+1. If the Custodian does not receive the Creation Unit(s) and Cash Component by the appointed times on T+1, the redemption will be rejected, except in the circumstances described below. A rejected redemption request may be resubmitted the following Business Day.

Orders involving foreign Redemption Securities are expected to be settled outside the Clearing Process. Thus, upon receipt of an irrevocable redemption request, the Distributor will notify the Adviser and the Custodian. The Custodian will then provide information of the redemption to the Fund's local sub-custodian(s). The redeeming Authorized Participant, or the investor on whose behalf it is acting, will have established appropriate arrangements with a broker-dealer, bank or other custody provider in each jurisdiction in which the Redemption Securities are customarily traded and to which such Redemption Securities (and any cash-in-lieu) can be delivered from the Fund's accounts at the applicable local sub-custodian(s).

Acceptance of Redemption Requests

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust. The Trust's determination shall be final and binding.

Delivery of Redemption Basket

Once the Fund has accepted a redemption request, upon next determination of the Fund's NAV, the Fund will confirm the issuance of a Redemption Basket, against receipt of the Creation Unit(s) at such NAV, any cash-in-lieu and Transaction Fee. A Creation Unit tendered for redemption and the payment of the Cash Component, any cash-in-lieu and Transaction Fee will be effected through DTC. The Authorized Participant, or the investor on whose behalf it is acting, will be recorded on the book-entry system of DTC.

The Redemption Basket will generally be delivered to the redeeming Authorized Participant within T+3. Except under the circumstances described below, however, a Redemption Basket generally will not be issued until the Creation Unit(s) are delivered to the Fund, along with the Cash Component, any cash-in-lieu and Transaction Fee.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis.

Cash Redemption Method

When cash redemptions of Creation Units are available or specified for the Fund, they will be effected in essentially the same manner as in-kind redemptions. In the case of a cash redemption, the investor will receive the cash equivalent of the Redemption Basket minus any Transaction Fees, as described above.

STATUS AND TAXATION OF THE FUND

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable U.S. federal income tax laws as of the date of this SAI, which tax laws may be changed or subject to new

interpretations by the courts or the Internal Revenue Service (the “IRS”), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. federal income, estate or gift, or state, local or foreign tax concerns affecting the Fund and its shareholders. The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisors to determine the tax consequences to them of investing in the Fund.

RIC

The Fund was organized as a series of a business trust, and intends to qualify for treatment as a regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”) in each taxable year. There can be no assurance that it will so qualify. If the Fund qualifies as a RIC, its dividend and capital gain distributions generally are subject only to a single level of taxation, to the shareholders. This differs from distributions of a regular business corporation which, in general, are taxed first as taxable income of the distributing corporation, and then again as dividend income of the shareholder.

To continue to qualify for treatment as a RIC under Subchapter M of the Code, the Fund must satisfy the following requirements:

- Income Requirement – the Fund must derive at least 90% of its gross income each taxable year from dividends, interest, certain payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, and certain other income (including gains from options, futures, or forward contracts derived with respect to the RIC’s business of investing in stock securities, or foreign currencies).
- Asset Diversification Test – the Fund must diversify its holdings so that, at the end of each quarter of each taxable year, (i) at least 50% of the value of the Fund’s total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, with such other securities limited for purposes of such calculation, in respect of any one issuer, to an amount not greater than 5% of the value of the Fund’s total assets and not more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund’s total assets is invested in the securities of any one issuer (other than U.S. government securities or the securities of other RICs), the securities (other than the securities of other RICs) of any two or more issuers that the Fund controls and that are determined to be engaged in the same, similar or related trades or businesses, or the securities of one or more qualified publicly traded partnerships (“QPTP”).

Distribution Requirement – the Fund must distribute to its shareholders at least 90% of its investment company taxable income and 90% of its net tax-exempt income, if any, for the year. If the Fund qualifies as a RIC but distributes less than 98% of its ordinary income and 98.2% of its capital gain net income (as the Code defines each such term) in a particular calendar year, the Fund would be subject to an excise tax. The excise tax, if applicable, is 4% of the excess of the amount required to have been distributed over the amount actually distributed for the applicable year. If the Fund does not qualify as a RIC, all of its taxable

income (including its net capital gain) would be subject to taxation at the corporate income tax rate without any deduction for dividends paid, and the dividends would be taxable to the shareholders as ordinary income (or possibly as qualified dividend income) to the extent of the Fund's current and accumulated earnings and profits. Failure to qualify as a RIC would thus have a negative impact on the Fund's income and performance. If the Fund does not qualify as a RIC, it would be more beneficial for a shareholder to directly own the Fund's underlying investments rather than indirectly owning the underlying investments through the Fund.

Distributions

Net investment income generally consists of interest, dividends and short-term capital gains, less expenses. Net realized capital gains for a fiscal period are computed by taking into account any capital loss carryforward of the Fund. Distributions of net investment income are taxable to shareholders as ordinary income. For individual shareholders, a portion of the distributions paid by the Fund may consist of qualified dividends eligible for taxation at the rate applicable to long-term capital gains to the extent the Fund designates the amount distributed as a qualified dividend and the shareholder meets certain holding period requirements with respect to his or her Fund shares. In the case of corporate shareholders, a portion of the distributions may qualify for the intercorporate dividends-received deduction to the extent that the Fund designates the amount distributed as eligible for deduction and the shareholder meets certain holding period requirements with respect to its Fund shares. The aggregate amount so designated to either individuals or corporate shareholders cannot, however, exceed the aggregate amount of such dividends received by the Fund for its taxable year.

Any long-term capital gain distributions are taxable to shareholders as long-term capital gains regardless of the length of time shares have been held. Net capital gains distributions are not eligible for the qualified dividend income treatment or the dividends-received deduction referred to in the previous paragraph.

Distributions of any net investment income and net realized capital gains will be taxable as described above. Shareholders who choose to receive distributions in the form of additional shares will have a cost basis for federal income tax purposes in each share so received equal to the NAV of a share on the reinvestment date. Distributions are generally taxable when received. However, distributions declared in October, November, or December to shareholders of record on a date in such a month and paid the following January are taxable as if received on December 31. Distributions are includable in alternative minimum taxable income in computing a noncorporate shareholder's liability for the alternative minimum tax.

A redemption of Fund shares may result in recognition of a taxable gain or loss and, if held as a capital asset, capital gain or loss. Any loss realized upon a redemption of shares within six months from the date of their purchase will be treated as a long-term capital loss to the extent of any amounts treated as distributions of long-term capital gains received on those shares. Any loss realized upon a redemption may be disallowed under certain wash sale rules to the extent Fund shares are purchased (through reinvestment of distributions or otherwise) within 30 days before or after the redemption.

Tax Reporting

If you are a non-retirement plan holder, the Fund will send you a Form 1099 each year that tells you the amount of distributions you received for the prior calendar year, the tax

status of those distributions, and a list of reportable sale transactions. Generally, the Fund's distributions are taxable to you in the year you received them. Investors should be careful to consider the tax consequences of buying shares shortly before a distribution. The price of shares purchased at that time may reflect the amount of the anticipated distribution. However, any such distribution will be taxable to the purchaser of the shares and may result in a decline in the share value by the amount of the distribution.

Hedging

Hedging strategies, to reduce risk in various ways, are subject to complex rules that determine, for federal income tax purposes, the character and time for recognition of gains and losses that the Fund realizes in connection with the hedge. The Fund's income from derivative instruments, if any, in each case derived with respect to its business of making investments, should qualify as allowable income for the Fund under the Income Requirement.

Distributions Received by Qualified Retirement Plans

Fund distributions received by your qualified retirement plan, such as a 401(k) plan or IRA, are generally tax-deferred; this means that you are not required to report Fund distributions on your income tax return when paid to your plan, but, rather, when your plan makes payments to you or your beneficiary. Special rules apply to payouts from Roth and Education IRAs.

Backup Withholding

By law, a withholding of tax may apply to your taxable dividends and sales proceeds unless you: (i) provide your correct social security or taxpayer identification number; (ii) certify that this number is correct; (iii) certify that you are not subject to backup withholding; and (iv) certify that you are a U.S. person (including a U.S. resident alien). Withholding also is imposed if the IRS requires it. When withholding is required, the amount will be 24% of any distributions or proceeds paid. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS. Certain payees and payments are exempt from backup withholding and information reporting. The special U.S. tax certification requirements applicable to non-U.S. investors to avoid backup withholding are described under the "Non-U.S. Investors" heading below.

Non-U.S. Investors

Non-U.S. investors (shareholders who, as to the United States, are nonresident alien individuals, foreign trusts or estates, foreign corporations, or foreign partnerships) may be subject to U.S. withholding and estate tax and are subject to special U.S. tax certification requirements. Non-U.S. investors should consult their tax advisors about the applicability of U.S. tax withholding and the use of the appropriate forms to certify their status.

The United States imposes a withholding tax at the 30% statutory rate (or at a lower rate if you are a resident of a country that has a tax treaty with the U.S.) on U.S. source dividends, including on income dividends paid to you by the Fund. Exemptions from this U.S. withholding tax are provided for capital gain dividends paid by the Fund from its net long-term capital gains, interest-related dividends paid by the Fund from its qualified net interest income from U.S. sources and short-term capital gain dividends. However, notwithstanding such exemptions from U.S.

withholding at the source, any dividends and distributions of income and capital gains, including the proceeds from the sale of your Fund shares, will be subject to backup withholding at a rate of 24% if you fail to properly certify that you are not a U.S. person. Certain dividends reported by the Fund to shareholders as interest-related dividends and paid from its qualified net interest income from U.S. sources are not subject to U.S. withholding tax. Foreign shareholders may be subject to U.S. withholding tax at a rate of 30% on the income resulting from an election to pass-through foreign tax credits to shareholders, but may not be able to claim a credit or deduction with respect to the withholding tax for the foreign tax treated as having been paid by them.

The tax consequences to a non-U.S. shareholder entitled to claim the benefits of an applicable tax treaty may be different from those described herein. Non-U.S. shareholders are urged to consult their own tax advisors with respect to the particular tax consequences to them of an investment in the Fund, including the applicability of foreign tax.

FATCA

Under the Foreign Account Tax Compliance Act ("FATCA"), the Fund may be required to withhold a generally nonrefundable 30% tax on (1) distributions of investment company taxable income and (2) distributions of net capital gain and the gross proceeds of a sale or redemption of Fund shares paid to (a) certain "foreign financial institutions" unless such foreign financial institution agrees to verify, monitor, and report to the IRS the identity of certain of its account holders, among other items (or unless such entity is otherwise deemed compliant under the terms of an intergovernmental agreement between the United States and the foreign financial institution's country of residence), and (b) certain "non-financial foreign entities" unless such entity certifies to the Fund that it does not have any substantial U.S. owners or provides the name, address, and taxpayer identification number of each substantial U.S. owner, among other items. In December 2018, the IRS and Treasury Department released proposed Treasury Regulations that would eliminate FATCA withholding on Fund distributions of net capital gain and the gross proceeds from a sale or redemption of Fund shares. Although taxpayers are entitled to rely on these proposed Treasury Regulations until final Treasury Regulations are issued, these proposed Treasury Regulations have not been finalized, may not be finalized in their proposed form, and are potentially subject to change. This FATCA withholding tax could also affect the Fund's return on its investments in foreign securities or affect a shareholder's return if the shareholder holds its Fund shares through a foreign intermediary. You are urged to consult your tax adviser regarding the application of this FATCA withholding tax to your investment in the Fund and the potential certification, compliance, due diligence, reporting, and withholding obligations to which you may become subject in order to avoid this withholding tax. Non-U.S. investors should consult their own tax advisors regarding the impact of these requirements on their investment in the Fund. The requirements imposed by FATCA are different from, and in addition to, the U.S. tax certification rules to avoid backup withholding described above. Shareholders are urged to consult their tax advisors regarding the application of these requirements to their own situation.

Effect of Future Legislation; Local Tax Considerations

The foregoing general discussion of U.S. federal income tax consequences is based on the Code and the regulations issued thereunder as in effect on the date of this SAI. Future legislative or administrative changes, including provisions of current law that sunset and thereafter no longer apply, or court decisions may significantly change the conclusions expressed herein, and any such changes or decisions may have a retroactive effect with respect to the transactions contemplated herein. Rules of state and local taxation of ordinary income, qualified dividend income and capital gain dividends may differ from the rules for U.S. federal income taxation

described above. Distributions may also be subject to additional state, local and foreign taxes depending on each shareholder's particular situation. Non-U.S. shareholders may be subject to U.S. tax rules that differ significantly from those summarized above. Shareholders are urged to consult their tax advisors as to the consequences of these and other state and local tax rules affecting investment in the Fund.

The foregoing is only a summary of some of the important federal income tax considerations affecting the Fund and its shareholders and is not intended as a substitute for careful tax planning. **Accordingly, prospective investors should consult their own tax advisers for more detailed information regarding the above and for information regarding federal, state, local and foreign taxes.**

THE DISTRIBUTOR

Northern Lights Distributors, LLC (the "Distributor"), located at 4221 North 203rd Street, Suite 100, Elkhorn, Nebraska 68022, is the distributor of Creation Units for the Fund. An officer of the Trust is also an officer of the Distributor, and may be deemed to be an affiliate of the Distributor. The Distributor is a wholly-owned subsidiary of Ultimus (defined below). The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Distributor is obligated to sell the shares of the Fund on a reasonable efforts basis only against purchase orders for the shares. Shares of the Fund are offered on a continuous basis.

OTHER SERVICE PROVIDERS

Administrator and Fund Accountant

Ultimus Fund Solutions, LLC ("Ultimus"), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as the Administrator and fund accountant to the Fund, pursuant to a Master Services Agreement. Ultimus is the parent company of the Distributor. One Trustee and the officers of the Trust are members or management and/or employees of the Distributor or Ultimus.

Custodian and Transfer Agent

Brown Brothers Harriman & Co., located at 50 Post Office Square, Boston, Massachusetts, 02110, is Custodian of the Fund's investments. The Custodian acts as the Fund's depository, safekeeps portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Fund's request and maintains records in connection with its duties. Brown Brothers Harriman & Co. also serves as the Fund's Transfer Agent.

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., ("Cohen") located at 1350 Euclid Avenue, Suite 800, Cleveland, OH 44115, has been selected as the independent registered public accounting firm for the Fund for the fiscal period ending October 31, 2022. Cohen will perform an annual audit of the Fund's financial statement and will provide financial, tax and accounting services as requested.

Legal Counsel

Troutman Pepper Hamilton Sanders LLP, located at 3000 Two Logan Square, Philadelphia, PA 19103, serves as legal counsel to the Trust and Fund.

FINANCIAL STATEMENTS

The Fund is newly organized and therefore no financial information is included in this SAI. You may request a copy of the Fund's Annual and Semi-Annual Reports to shareholders, once available, at no charge by calling the Fund at (713) 401-9048 or by visiting the Fund's website at www.genuineinvestorsetf.com.

DISCLAIMERS

Shares of the Fund are not sponsored, endorsed, or promoted by NYSE Arca. NYSE Arca makes no representation or warranty, express or implied, to the owners of the Shares of the Fund. NYSE Arca is not responsible for, nor has it participated in, the determination of the timing of, prices of, or quantities of the Shares of the Fund to be issued, or in the determination or calculation of the equation by which the Shares are redeemable. NYSE Arca has no obligation or liability to owners of the Shares of the Fund in connection with the administration, marketing, or trading of the Shares of the Fund. Without limiting any of the foregoing, in no event shall NYSE Arca have any liability for any lost profits or indirect, punitive, special, or consequential damages even if notified of the possibility thereof.

APPENDIX A

VALUED ADVISERS TRUST

PROXY VOTING POLICY AND PROCEDURES

Valued Advisers Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Delegation of Proxy Voting Authority to Fund Advisers

The Board believes that the investment adviser of the Fund (each an “Adviser” and, collectively, the “Advisers”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of the Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of the Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, each Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

The Chief Compliance Officer shall maintain, or cause another service provider to the Trust to maintain, a copy of the Trust’s proxy voting policies and procedures and shall maintain, or cause another service provider to the Trust to maintain, a copy of the proxy voting record for each portfolio of the Funds.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of the Fund’s shareholders, and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy,

to the extent consistent with the shareholders' best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board's decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

Each Fund shall disclose in its statement of additional information the policies and procedures that it uses to vote proxies relating to portfolio securities. In addition, each fund shall make available to shareholders, either on its website or upon request, the record of how the Trust voted proxies relating to portfolio securities.

Each Fund shall disclose in its annual and semi-annual reports to shareholders and in its registration statement the methods by which shareholders may obtain information about the Fund's proxy voting policies and procedures and the Fund's proxy voting record.

If the Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of the Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Reporting of the Trust's Proxy Voting Record

Each Adviser shall provide to the Trust's Administrator, a certification that the Adviser has cast proxy votes for the relevant securities for each Fund within the Trust for which it acts as investment adviser or sub-adviser, within 15 days following the end of each calendar quarter. The Administrator shall promptly inform the Trust's Chief Compliance Officer ("CCO") in the event that the Adviser fails to provide the certification.

Prior to the filing of Form N-PX on or before August 31 of each year, each Investment Adviser's chief compliance officer shall review the Investment Adviser's proxy voting records for completeness and accuracy and to determine whether any proxy votes were cast on behalf of the Fund for which reports were not filed. If an unreported vote is discovered, the Investment Adviser's chief compliance officer shall contact the Fund manager for an explanation and documentation and report the unreported vote and explanation to the Trust CCO. The Investment Adviser will submit the proxy voting records for the period ended June 30 in the required format to the Administrator upon request or as soon after June 30 as is practicable.

Each Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 15 days following the end of each calendar quarter. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the Securities and Exchange Commission no later than August 31st of each year.

APPENDIX B

Globescan Capital, Inc. PROXY VOTING POLICY

Proxy Voting Procedures

Individual Managed Accounts

GCI will accept voting authority for client securities, or will hire an outside third party to do so. It will always seek to vote in the best interests of its clients. GCI does not maintain preapproved voting guidelines but relies on the investment committee, comprised of the portfolio manager and senior equity analyst, the firm's principal(s) or the selected outside third party (as applicable) to determine the appropriate course of action in voting client securities that is in the best interest of the client. Clients may direct GCI on how to vote client securities by communicating their wishes in writing or electronically to GCI. When voting client proxies the investment committee, firm principal(s) or outside third party will always hold the interests of the clients above its/their own interests. GCI will maintain the voting record for proxy voting for at least six years from the end of the current year. The disclosure that clients may obtain a copy of GCI proxy voting policies and procedures upon request is included in Form ADV Part 2A.

ETF Proxy Voting Procedures

GCI's Investment Committee is responsible for making all proxy voting decisions for the ETF, and will perform all proxy voting with the use of third-party software. When voting ETF's proxies, the investment committee will always hold the interests of the clients above its/their own interests by making all decisions with the objective of maximizing shareholder value. GCI will maintain proxy voting records for at least six years from the end of the current year. The required disclosure stating that clients may obtain a copy of GCI proxy voting policies and procedures upon request is included in Form ADV Part 2A.

Form N-PX reporting will be provided to the fund administrator as of June 30 of each year.

Conflicts of Interest

GCI will disclose any conflicts of interest to its client and obtain client permission to proceed with the vote prior to voting client proxies that involve a conflict of interest.

Record Keeping

Proxy voting records are kept in an easily accessible place for six years from the end of the current year and in the adviser's office for the first two years.

Typical proxy voting records are:

- Proxy voting policies and procedures;
- Each proxy statement that the adviser receives regarding client securities;
- Record of each vote cast by the adviser on behalf of a client;
- Copies of any client communication directing how the adviser should vote a particular proxy;
- Any document created by the adviser that was material to making a decision on how to vote proxies; and
- Written requests from a client for information on how the adviser voted proxies on behalf of the client, and a copy of any written responses by the adviser to any client request for information on how the adviser voted proxies.

APPENDIX C

Governance and Nominating Committee Charter

Valued Advisers Trust

Governance and Nominating Committee Membership

1. The Governance and Nominating Committee (the “Committee”) of Valued Advisers Trust (“Trust”) shall be composed entirely of Independent Trustees.

Governance and Functions

1. The Committee shall assist the Board in adopting fund governance practices and reviewing the Trust’s fund governance standards.
2. To carry out this purpose, the Committee shall have the following duties and powers:
 - a. To periodically review workload, size, and composition of the Board;
 - b. To periodically review the qualifications and independence of the members of the Board;
 - c. To periodically review the compensation of the Independent Trustees;
 - d. To monitor, as necessary, regulatory developments, rule changes and industry best practices in fund governance;
 - e. To periodically review the Trust’s committee structure and consider if additional committees or changes to existing committees are needed or warranted; and
 - f. To report its activities to the Board and to make such recommendations with respect to the above and other matters as the Committee may deem necessary or appropriate.

Board Nominations and Functions

1. The Committee shall make recommendations for nominations for Independent Trustees members on the Board of Trustees (the “Board”) to the incumbent Independent Trustees members and to the full Board. The Committee also shall evaluate candidates’ qualifications and make recommendations for “interested” members on the Board to the full Board. The Committee shall evaluate candidates’ qualifications for Board membership and their independence from the investment advisers to the Trust’s series portfolios and the Trust’s other principal service providers. Persons selected as Independent Trustees must not be “interested person” as that term is defined in the Investment Company Act of 1940, as amended (the “1940 Act”), nor shall an Independent Trustee have any affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The

Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, e.g., business, financial or family relationships with investment advisers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.

2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board.
3. The Committee may adopt from time to time specific, minimum qualifications that the Committee believes a candidate must meet before being considered as a candidate for Board membership and shall comply with any rules adopted from time to time by the U.S. Securities and Exchange Commission (the "SEC") regarding investment company nominating committees and the nomination of persons to be considered as candidates for Board membership. The Committee shall periodically review Independent Trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make recommendations to the full Board for nomination for membership on all committees of the Board and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the Board.

Other Powers and Responsibilities

1. The Committee shall meet as often as it deems appropriate.
2. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.
3. The Committee shall report its activities to the Board and make such recommendations as the Committee may deem necessary or appropriate.
4. A majority of the Committee's members will constitute a quorum. At any meeting of the Committee at which a quorum is present, the decision of a majority of the members present and voting will be determinative as to any matter submitted to a vote. The Committee may meet in person or by telephone, and a majority of the members of the Committee may act by written consent to the extent not inconsistent with the Trust's by-laws. In the event of any inconsistency between this Charter and the Trust's organizational documents, the provisions of the Trust's organizational documents shall be given precedence.

5. The Committee shall review this Charter at least annually and recommend any changes to the Board.

Adopted: April 23, 2010
Amended: June 8, 2016
Amended: June 7, 2018

APPENDIX A

VALUED ADVISERS TRUST

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Governance and Nominating Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures.
- II. *Shareholder Candidates.* The Governance and Nominating Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Governance and Nominating Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Governance and Nominating Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.
- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Governance and Nominating Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Governance and Nominating Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Governance and Nominating Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
